People Connect

By Arjun Saxena (I026),
Aman Sharma (I030),
Aditya Trivedi (I038)

Problem Statement

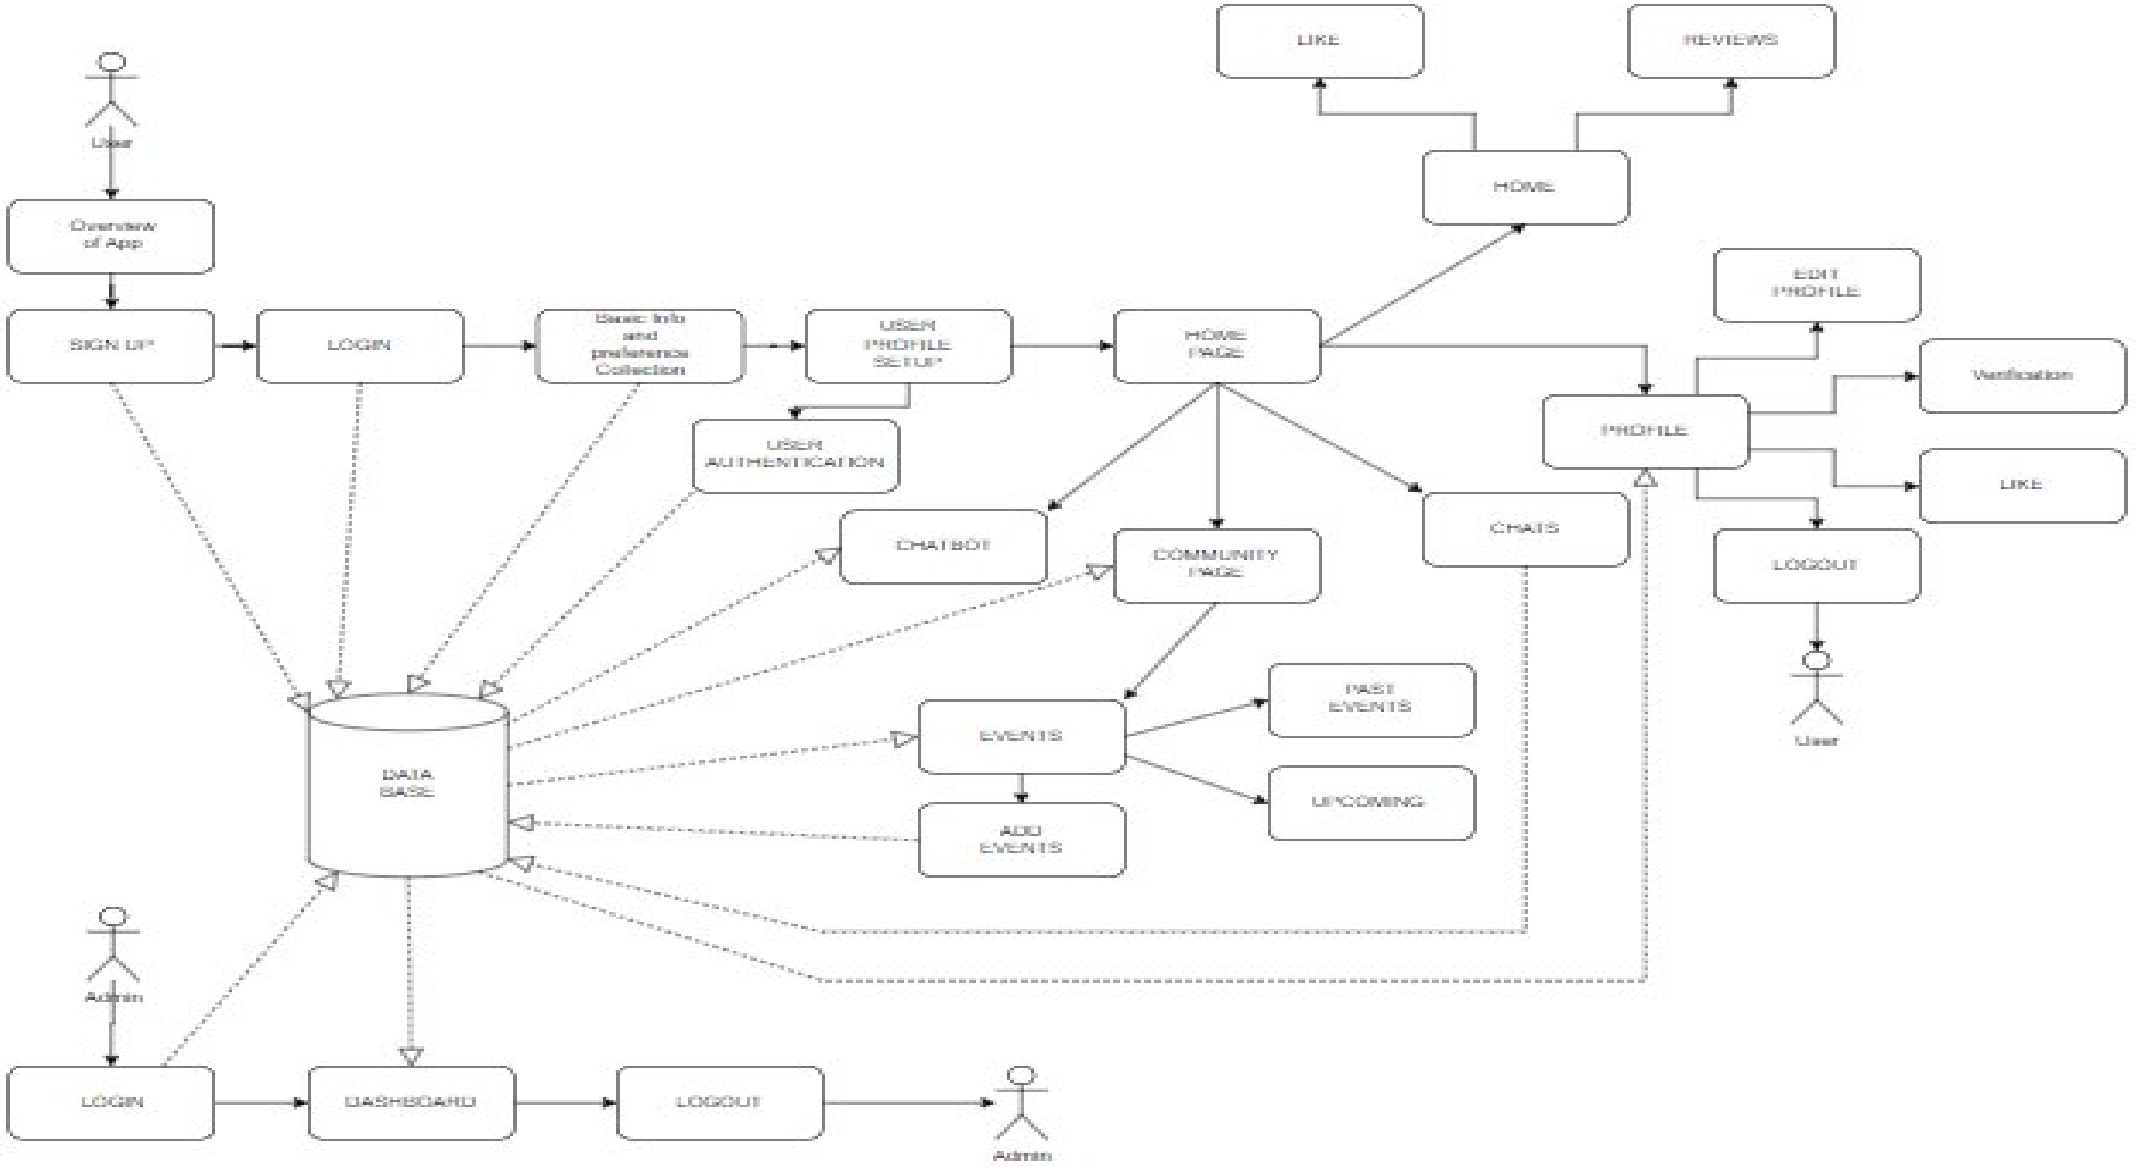

Objectives

- The text-to-voice functionality should guide user while navigating through the application audible speech.
- Create a user-friendly Swift UI interface throughout the application.
- Design a community page to facilitate user connection, sharing, and engagement.

Objectives

- Provide real-time access to a dynamic and up-to-date database (listed twice, so likely a high priority).
- Include a tutorial page to guide users on app functionalities.
- Develop a dedicated page for adding events to foster community interaction.

Literature Review

- ## Older Adults Perceptions of Technology and Barriers to Interacting with Tablet Computers: A Focus Group Study

- The study conducted focus groups with older adults to understand their familiarity with and barriers to interacting with new technologies. The themes that emerged from the focus groups included barriers such as lack of instructions and guidance

- ## Keys to Engaging Older Adults

- It mentions the Old Bridge Public Library in New Jersey, which has a specially designed "destination" area for older adults featuring programming activities focused on technology, gaming, and lifelong learning

- https://pubmed.ncbi.nlm.nih.gov/29071004/
- https://www.ala.org/aboutala/sites/ala.org.aboutala/files/content/Keys%20to%20Engaging%20Older%20Adults.pdf

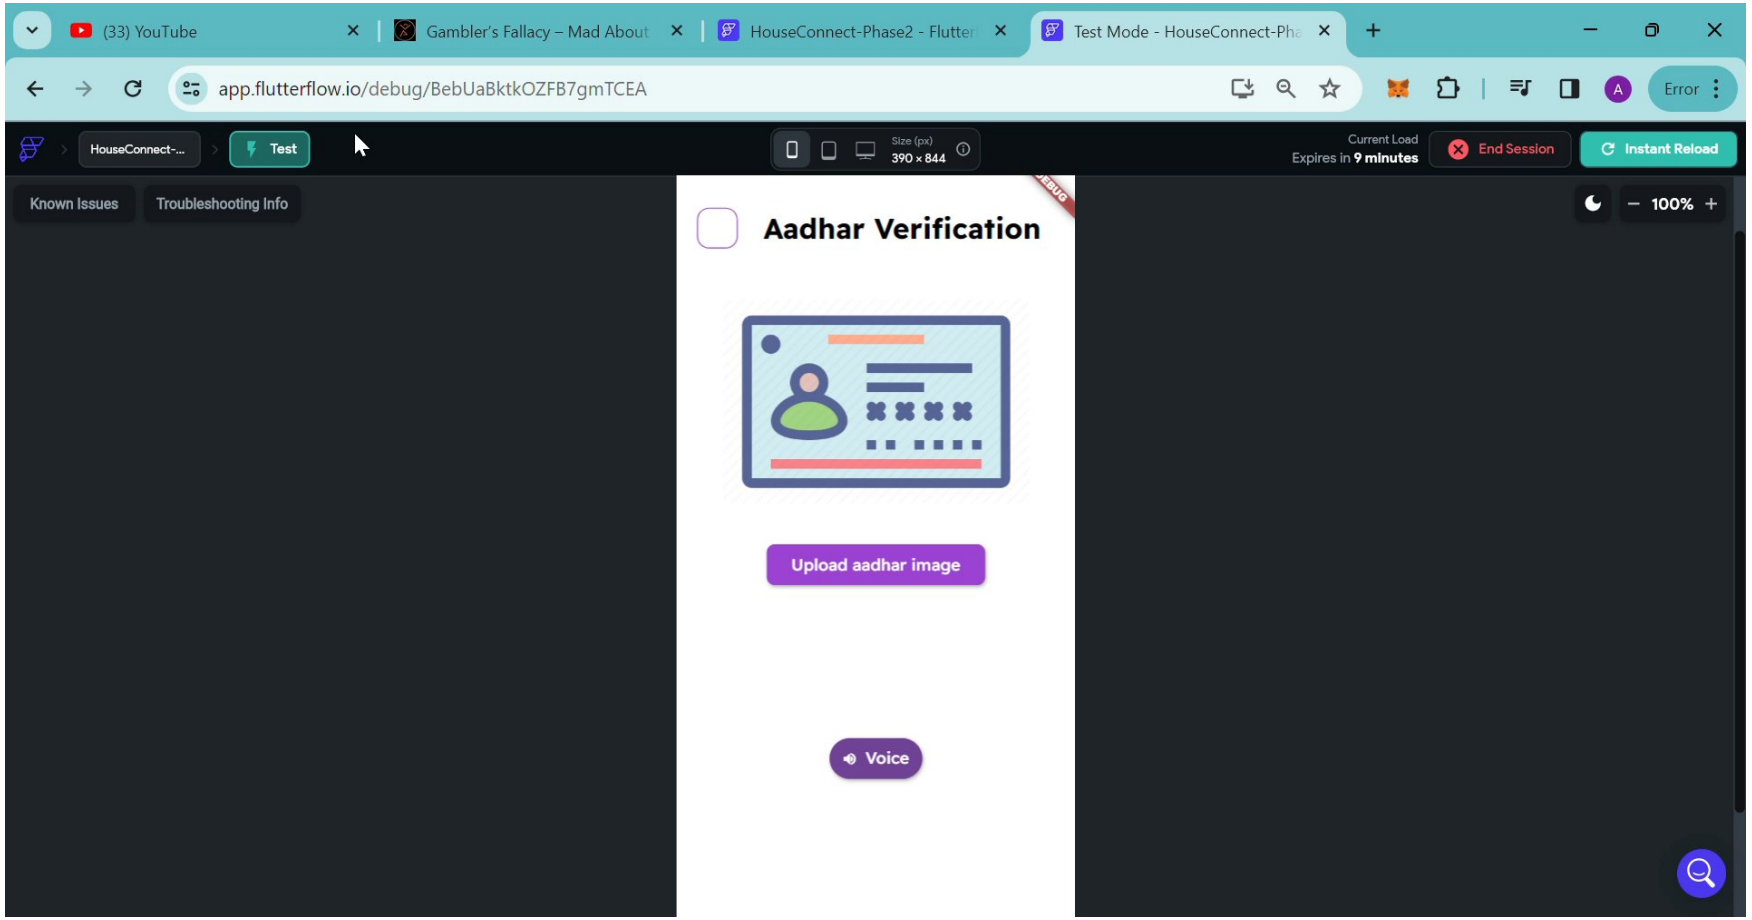

Literature Review

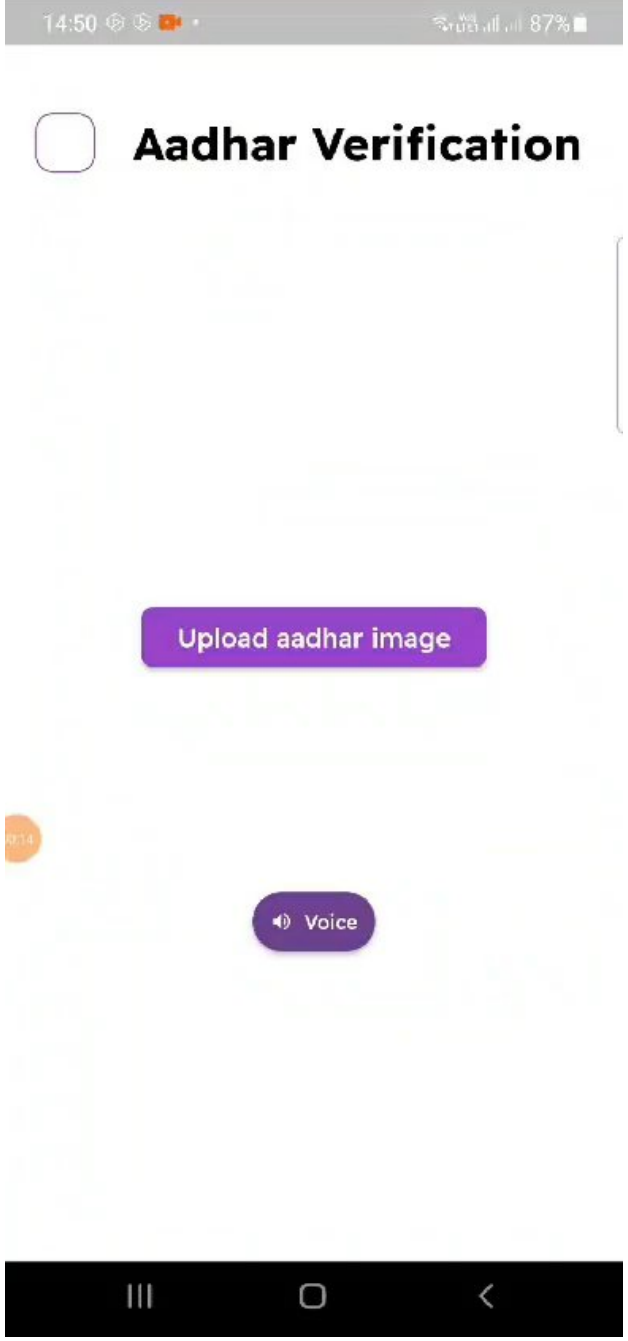

- Understanding older adults' use of social technology and the factors influencing use

- Design and evaluation of a mobile user interface for older adults: navigation, interaction and visual design recommendations

- https://www.cambridge.org/core/journals/ageing-and-society/article/understanding-older-adults-use-of-social-technology-and-the-factors-influencing-use/F07840F93E65BC01426899E850B47489
